## LED High Lumen Biax® Plug-In

GE's LED high lumen Biax® plug-in lamp provides an easy solution to leverage the low energy and long life of LED. Simply plug in the LED lamp into the existing fluorescent fixture, no tools, wiring, or costly upgrades required.

### LOW COST OPERATION

- Uses 30% less energy
- For example, using only 17 watts of energy, save over \$44 in energy costs over the rated life of a lamp vs. a standard 25-watt CFL plug-in based on \$0.11 per kWh
- Advanced optics eliminate wasted light to deliver a more targeted beam with fewer lumens (2150 vs. 2600)

### COLOR TEMPERATURE

- Available in 3000K, 3500K, 4000K and 5000K

### LONG LIFE

- Lasts 2.5X longer than CFL plug-in
- 50,000 hours rated life (L70)

### GE QUALITY AND RELIABILITY

- 3 year limited warranty

### ENVIRONMENTALLY CONSCIOUS

- These lamps are energy efficient, contain no lead or mercury, and are compliant with material restriction requirements of RoHS

\* The life rating is based on the hours of operation the lamp will provide before reaching 70% of its original rating (L70)  
 \*\* Minimum order quantity = 10

# UL 1993 Environmental Requirements for LED LAMPS  
 Location, damp - Exterior or interior location that is normally or periodically subject to condensation of moisture in, on, or adjacent to, electrical equipment, and includes partially protected locations.  
 Location, dry - Location not normally subject to dampness, may include a location subject to temporary dampness, i.e., building under construction, provided ventilation is adequate to prevent an accumulation of moisture.  
 Location, wet - Location in which water or other liquid can drip, splash, or flow on or against electrical equipment.
